Performance

The Committee, following the advice of the Scrutiny Board, appointed two members to monitor statistical information about the service delivery performance of services coming within the remit of the committee. The members of the committee appointed to this task were Councillors Shaw and Skepelhorn. There were no performance issues referred to the Committee by the two nominated members.

During the Course of the year the Scrutiny Board decided that each of the scrutiny committees should receive reports on the priority performance indicators relating to services within their remit.

Work in Progress

The committee has carried out a great deal of work on the topics of care for the elderly and services for vulnerable adults and has established two broadly based working parties to assist with the task of collecting and interpreting evidence and information. A contingent from the older persons working party visited Liverpool and Warrington to see and evaluate the approach those two local authorities have adopted to the provision of accommodation and services for older people.

The committee has monitored the development and implementation of the new lettings system for housing accommodation.

Future Work Programme

The topics currently being worked on are approaching completion following which the committee will make a start on the scrutiny of social housing development in neighbouring areas. This is likely to have a bearing on the urban development corporation being set up to implement the Luton, Dunstable and Houghton Regis growth area.
