

Cllr Saleem
Luton Borough Council

80 Stamford Rd
Luton LU2 0QA

10TH Jan 2020

Dear Cllr. Saleem

NEED FOR PUBLIC CONVENIENCES AT
THE INTERCHANGE

Thank you for your phone call last month.

Please find enclosed our petition of 11
signatures to date, to get the ball rolling.

We would very much appreciate a prompt
consideration of this problem that affects
so many passengers using the interchange.

Many thanks for your attention.

Yours sincerely

Brian O'Brien

Petition To Luton Borough Council

The Need For Public Conveniences In The Interchange

We, the undersigned, petition the Council to provide public conveniences in The Interchange.
The Interchange is a major bus and rail transport hub used every day by thousands of people of all ages.

Currently the only conveniences available are on platform 4 of the railway station which for access, necessitate climbing two quite steep sets of stairs or in Starbucks who prominently display a notice saying only customers may use its toilets. There is nothing one can buy in Starbucks for less than a pound or to be very precise 99p.

Older people, parents with children, especially young children in pushchairs and people with kidney problems are particularly affected.
Luton's old bus station had good, well kept public conveniences and it is difficult to understand why people using the new Interchange, which apart from being the county's major transport hub also serves Luton and Heathrow Airports, are now deemed not to need toilet facilities any more.

We would ask the Council to consider our petition as a matter of urgency and act to remedy the situation as soon as possible especially with the winter months just around the corner.

Thank you for considering our petition.
