Subject: Premises Application 336-340 Dunstable Road

FAO Feri Askew

Further to our conversation today, I wish to inform you that we have dealt with your application as per the LA03 Regulations and used the prescribed 28 day period from the day after the day of receipt. On that basis we had determined that the consultation period expired on the 27th August 2008. We then received representations regarding this application on the 29th August 2008, which have been submitted on the basis that the notices displayed on the premises by Tesco, list the closing date for representations as the 30th August.

I understand that it is Tesco protocol that additional days are added to cope with delays in local authority process. On this basis you have verbally agreed in principle that it may be appropriate for Tesco to accept these representations. The notice may also be determined not to be as prescribed by the LA2003 (PL and CPC) Regs 2005.

If these representations were to be accepted by Tesco then this would accord with the approach taken by the House of Lords in Belfast City Council v Miss Behavin Ltd [2007] UKHL 19

Please would you confirm that you are in fact willing to accept the representations, and if so we will then make arrangements for the panel hearing.

Thank you for your assistance

Regards
