2ND FEBRUARY 2016

Dear Luton Borough Council,

Our Year 1 friends recently went on a walk near our school for their topic work on Houses and Homes. Our teachers had to change the planned route as there was so much rubbish and dog mess and cars in their way!

Please can you make the people put their rubbish in the bins and park their cars on the road? We couldn't even get passed some of them. We have sent you some of the photos we took along the way to show you. The council could give someone a job to go around telling people to use their bins, or the tip, or to recycle.

We really want to tell you that Luton could be beautiful. But not if people are going to be allowed to do this!

Yours sincerely,
